1. Summary of Opening Bids

1C 15+ hcp [could be less with extreme shape], any, 3+ controls
1D 10-14 hcp, 2 or 3 suits, not balanced, 2+ controls (could be 5/5 majors 1st or 2nd)
1H 10-14 hcp, 5+ hearts, 0-4 spades, 2+ controls
1S 10-14 hcp, 5+ spades, 0-4 hearts in 1st or 2nd seat, 2+ controls
1NT 11-14 hcp, balanced (4333, 4432, or 5332 with five card minor), 2+ controls
2C 10-14 hcp, 6+ clubs with no other suit (except 4 weak diamonds), 2+ controls
2D 10-14 hcp, 6+ diamonds with no other suit, 2+ controls
2H 5-9 hcp, 5+/5+ minors OR majors
2S 5-9 hcp, 5+/5+ blacks OR reds
2NT 5-9 hcp, 5+/5+ pointed OR rounded
3suit natural pre-empt
3NT any solid 7 or 8 card suit, no outside A or K
4suit natural pre-empt
4NT Acol Blackwood

1.1 Openings in fourth seat

Hands which have less than 15 Pearson points (high card points + number of spades) should either be passed in, or alternatively opened 2H or higher. A fourth seat opening from 2H to 3S inclusive remains the same shape(s) as normal, but is now 10-14 hcp.

2. 1C opening (15+ hcp, any shape)

Responses summary

1D negative, either 0-7 hcp unbalanced, 0-8 hcp balanced OR less than 2 controls
1H 4+ hearts, 8+ hcp and 2+ controls
1S 4+ spades, 8+ hcp and 2+ controls, 0-3 hearts
1NT any 4333 or 4432, 9+ hcp and 2+ controls
2C 4+ clubs, 8+ hcp and 2+ controls
2D 5+ diamonds, 8+ hcp and 2+ controls, no other suit
2H+ both minors, 8+ hcp and 2+ controls

2.1 Continuations after positive responses to 1C

The 1C opener will almost always make the cheapest call, which is a relay whose only meaning is "tell me more". Eventually the 1C opener will break the relay sequence to name the final contract. NOTE: 3NT is never a relay. When 3NT is the cheapest call, 4C is the relay.

2.2 Single suited relay structure (5+ suit)

STEP 1 Give positive response in the single suit (1H, 1S, 2C, 2D)
STEP 2 After relay by 1C opener, rebid 2S or higher as indicated below:

2S High shortage - at most 2 cards in highest ranking outside suit, eg after 1C-1H-1S-2S shows a spade shortage and heart suit
2NT Middle shortage - at most 2 cards in middle ranking outside suit, ie diamond shortage if a major is the long suit, heart shortage if a minor is the long suit. Eg 1C-1S-1NT-2NT shows spades and a diamond shortage; and 1C-2C-2D-2NT shows clubs and a heart shortage.
3C Even shortage - showing 2 or 3 doubletons. If 3C is bid directly, eg 1C-1H-1S-3C this shows either 3-6-2-2 (ie two low doubletons) or 2-7-2-2. If 3C is bid indirectly (via 2S - high shortage) eg 1C-1H-1S-2S-2NT-3C, this shows a high doubleton and one other doubleton 2-6-3-2 or 2-6-2-3. See continuations below.

3D 5332 shape. If 3D is reached directly (ie not via 2S or 2NT) then this shows a low shortage by implication.

3H 6331 shape, etc.

3S 7330 shape, etc.

3NT 7321 or 7231 shape (only identity of 7 card suit and singleton known) AND 2 controls

4C 7321 or 7231 shape AND 3 controls, etc

Continuations after 3C direct/indirect response

a) Indirect, via 2S (high shortage), 2NT (relay), 3C (even shortage)
(3D relay)
3H 2 high doubletons (ie 2-2-3 residue)
3S 1 high and 1 low doubleton (ie 2-3-2 residue) AND 2 controls
3NT 1 high and 1 low doubleton (ie 2-3-2 residue) AND 3 controls, etc

b) Direct 3C (even shortage)
(3D relay)
3H seven carder (ie 2-2-2 residue)
3S six carder (ie 3-2-2 residue) AND 2 controls
3NT six carder (ie 3-2-2 residue) AND 3 controls, etc

2.3 Two suited relay structure

STEP 1 Responder bids their major (1H when holding both majors). See below for responding with both minors.

STEP 2 After bidding major, rebid:

1NT spades
2C clubs
2D diamonds (and 5+ major)
2H reverser (if bid directly, shows 4 card major and 5+ diamonds)

STEP 3 After both suits have been shown, rerebid 2H or higher

2H reverser - higher ranking suit is exactly 4 cards and other suit is 5+ cards
2S both suits are 5+ cards
2NT high shortage (if bid directly, shows lower ranking suit is exactly 4 cards)
3C even shortage, 5422 or 7411
(3D relay)
3H 7411
3S 5422 AND 2 controls
3NT 5422 AND 3 controls
4C+ etc

3D 5431 shape
3H 6421 shape
3S 7420 shape
Continuations after 2S rerebid (showing 5/5)

(2NT relay)
3C  high shortage
3D  even shortage (6511, 5611 shape)
   (3H relay)
      3S  high shortage (5611)
      3NT low shortage (6511) AND 2 controls
      4C  low shortage (6511) AND 3 controls, etc
3H  5521 shape
3S  5530 shape
3NT  5620 shape (high shortage)
4C  6520 shape AND 2 controls
4D  6520 shape AND 3 controls, etc

Note: any bid of 3H upwards directly (ie not via 3C/3D) shows a low shortage by implication.

Rebids when holding both minors

Initial positive response to 1C is 2H or higher as follows:

2H  reverser (ie 4 diamonds and 5+ clubs)
2S  5+ diamonds and 5+ clubs
   2NT  high shortage (if bid directly shows 4 clubs, 5+ diamonds and a spade shortage. If bid indirectly via 2H, shows 4 diamonds, 5+ clubs and a spade shortage).
   3C+  etc, as in other two-suited auctions

Note: to show longer clubs, bid 2H first. To show longer diamonds, make a bid from 2NT upwards directly. With a spade shortage, bid via 2NT; with a heart shortage bid directly from 3D upwards depending on hand shape.

2.4 Three suited relay structure

a) Three suited with both majors

1C  1H (positive with hearts)
1S  1NT (and spades)
2C  2D (and a minor)

b) Three suited with both minors

1C  2C (positive with clubs)
2D  2H (and diamonds and a major - NB: this is not the reverser since minor 2 suiters start at 2H)

After a 3 suiter has been established, step responses follow:

1st step high shortage
2nd step 4441 (low shortage by implication)
3rd step 4450
4th step 4540
5th step 5440 AND 2 controls
6th step 5440 AND 3 controls, etc

2.5 Balanced relay structure

1C 1NT - shows 9+ hcp, 4333 or 4432 and 2+ controls. CRASH (Colour, RAnk, SHape) relay structure used here.
(2C relay)
2D two four card suits of the same colour OR 4333 with a four card major
2H two four card suits of the same rank
2S 4333 (bid directly shows a four card minor; bid via 2D shows a four card major)
   (2NT relay)
   3C high shortage (ie 4 hearts or 4 clubs)
   3D low shortage (ie 4 spades or 4 diamonds) AND 2 controls
   3H low shortage AND 3 controls
   3S+ etc

2NT doubleton spade
3C doubleton club
3D doubleton diamond
3H doubleton heart AND 2 controls
3S doubleton heart AND 3 controls, etc

Note: two four card suits of the same shape are shown by implication with an immediate response of 2NT or higher.

Reverse relay

Note: Reverse relay does not apply when the opponents have intervened. When the 1NT responder is a passed hand, reverse relay also does not apply (and 2D is Stayman).

In auctions beginning 1C - 1NT, if opener rebids 2C as a relay, this denies 15-17 hcp and 4333 or 4432 shape. When holding these two hand types (and only these two), opener is required to rebid a reverse relay of 2D or higher on the same basis as the CRASH structure employed by responder after the normal 2C relay.

2.6 Controls and relay points

In most relay auctions (except relays after a semi-positive), after exact shape has been shown, next relay asks for controls (A=2, K=1). Singleton kings are not counted.
1st step 2 controls
2nd step 3 controls, etc

In relay auctions involving semi-positive hands (1C-1D-1H-1NT+), instead of showing controls, responder is required to show relay points (A=3, K=2, Q=1). Singleton kings or queens are not counted.
1st step 2 relay points
2nd step 3 relay points, etc

In reverse relay auctions (1C-1NT-2D+):
1st step 3 controls
2nd step 4 controls, etc
2.7 Denial cue bidding

After controls have been shown, next relay starts denial cue bidding. Relayee looks at longest suit, then next longest suit. When ties in suit length occur, look at highest ranking suit first. Singletons (including singleton honours) are not looked at in denial cue bidding. Doubletons are looked at once. Tripletons are looked at twice (on the second time round queens are investigated). Longer suits are looked at three times. On the first look at a suit, it is inspected for an ace or king. On the second look, it is inspected for an additional top honour (usually a queen, unless the suit has AK) and on the third look, jacks are checked. If the first suit looked at does not have the required honour, the relayee denies it by making the cheapest bid. If the relayee holds a required honour in the longest suit but not in the second longest suit, then they call the second cheapest bid. Future relays continue from where you left off.

1st step no ace or king in longest suit
2nd step ace or king in longest suit, and no ace or king in second longest suit
3rd step ace or king in longest suit, ace or king in second longest suit, and no ace or king in third longest suit, etc
Six card or longer suits

When first looking at a 6+ card suit, a denial does not say "no ace or king". Rather, a denial says "no two of top three honours". To bypass a 6+ suit on first round of denial cue bidding, you need either AK, AQ or KQ. After a denial on the first round, a further denial says no ace, king or queen in the suit, while a show would promise one of the top three.

Special gimmick

When holding AKQ in a suit of five cards or less (i.e., does not apply to 6+ card suits), basic denial cue bidding would frequently have insufficient bidding space to safely locate the queen. Therefore, denying at the first look at a suit either denies holding ace or king or promises a holding of AKQ. Given the three control difference between the two meanings, relayer should be able to pick which it is, especially after subsequent looks at the other suits.

2.8 The weak relay

There are a number of situations where the 1C opener fears that an auction is getting too high where responder might have only 3 or 4 controls. In these situations, the 1C opener bids 3NT as a weak relay. Responder is usually required to pass with fewer than 5 controls (exception, see 4NT bid below) but with more bids as follows:

- 4C: 5 controls
- 4D: 6 controls
- 4H: 7 controls
- 4S: 8 controls
- 4NT: only 4 controls but lots of queens and jacks

Exception: if 3NT weak relay has been made when relayee has shown 5422/7411, or 6322/7222, then:

- 4C: 7411 or 7222, 2+ controls
- 4D: 5422 or 6322, 5 controls
- 4H: 5422 or 6322, 6 controls
- 4S: 5422 or 6322, 7 controls
- 4NT: 5422 or 6322, only 4 controls but lots of queens and jacks

On rare occasions the 1C opener will stop in 4H/4S without control asking. Then:

- 1st step: 5 controls
- 2nd step: 6 controls, etc

2.9 Continuations after 1D negative response to 1C

After 1C-1D

- 1H: 19+ hcp, any shape
- 1S, 1NT, 2C, 2D, 2H: natural, 15-18 hcp
- 2S, and higher suit bids: natural, 15-18 hcp, good suit and playing strength
- 2NT: 5/5 minors, 15-18 hcp
- 3NT: to play, based on running suit and stoppers, 15-18 hcp

After 1C-1D-1H

- 1S: second negative, usually 0-4 hcp (could be up to 6 hcp if no more than one queen), denies an ace
1NT  5+ hcp, 4+ hearts, 2+ relay points
2C  5+ hcp, 4+ spades, 0-3 hearts, 2+ relay points
2D  5+ hcp, any 4333 or 4432, 2+ relay points
2H  5+ hcp, 4+ clubs, 2+ relay points
2S  5+ hcp, 5+ diamonds, no other suit, 2+ relay points
2NT+ 5+ hcp, both minors, 2+ relay points

Note: the full relay structure is used as normal but shifted up two steps.

After 1C-1D-1H-1S

1NT 19-20 balanced
2C  23+, any shape
2D, 2H, 2S, 3C natural, non-forcing
2NT 21-22 balanced
3NT to play, based on running suit and stoppers

After 1C-1D-1H-1S-2C

2D any 4333 or 4432 (and now 2NT rebid = 23-24 balanced)
2H 4+ hearts
2S 4+ spades, 0-3 hearts
2NT both minors
3C 5+ clubs or minor three suiter
3D 5+ diamonds
3H,3S good six card suit, QJ9xxx or better
3NT good six card minor, QJ9xxx or better
4C,4D,4H,4S good seven card suit, Q109xxxx or better

Relays after 1C-1D-1H-1S-2C

Complete shape showing not possible (except for balanced hands) so residues are ignored. Eg:

1C 1D
1H 1S
2C 2H hearts
2S 2NT and spades
3C 3H reverser, ie 4 spades and 5+ hearts
3S 3NT 4 spades and 5 hearts
4C 4 spades and 6 hearts
4D 4 spades and 7 hearts
1C  1D
1H  1S
2C  2S  spades
2NT 3S  5 spades and no other suit
     3NT  6 (bad) spades and no other suit
     4C  7 (bad) spades and no other suit

Continuations after 1C-1D-1H-1S-2NT (21-22 balanced) or 1C-1D-1H-1S-2C-2D-2NT (23-24 balanced)

3C  Puppet Stayman 3D  1 or 2 four card majors
     3H  5 hearts
     3S  5 spades
     3NT no 4 or 5 card major

After 3C-3D
     3H  4 spades
     3S  4 hearts
     3NT no major
     4C  signoff
     4D  both majors

3D  transfer to hearts
3H  transfer to spades
3S  forcing, 5 spades and 4 hearts
3NT  signoff
4C  forcing, 6 or 7 clubs
4D  forcing, 6 or 7 diamonds
4H  signoff
4S  signoff

3.  **1D opening (10-14 hcp, 2 or 3 suits, could be 5/5 majors 1st or 2nd seat)**

Responses summary

1H  either artificial game-force relay, or natural in hearts
1S  natural, non-forcing, may be invitational
1NT  natural, non-forcing, denies a 4 card major
2C,2D  natural, invitational
2H,2S,3C,3D  weak 2, six card suit
2NT  natural, invitational, denies a 4 card major

After 1D-1H

1S  4 spades or 3 suiter with both black suits
1NT  4 hearts or 3 suiter with both red suits
2C  5+ clubs and 4 diamonds
2D  5+ diamonds and 4 clubs
2H  5+/5+ majors
2S  5+/5+ minors
2NT+ not permitted

3.1 **Continuations with 2 or 3 suiters with at least one major**

After 1D-1H-1S (ie 4 spades or black 3 suiter)
1NT  natural, non-forcing, 4 or 5 hearts
2C  artificial game-force relay
2D  natural, non-forcing, hearts + diamonds
2H  natural, invitational, 5 or 6 hearts
2S  natural, non-forcing, hearts + spades
2NT  natural, invitational, 4 hearts

After 1D-1H-1NT (ie 4 hearts or red 3 suiter)

2C  artificial game-force relay
2D, 2S, 2NT, 3C  trial bids in hearts
2H, 3H  non-forcing

After 1D-1H-1S/1NT-2C

2D  3 suiter with both minors
2H  5+ clubs
2S  3 suiter with both majors
2NT+  5+ diamonds

Then revert to standard relay structure.

After 1D-1H-1S/1NT-2C-2D (ie minor 3 suiter)

(2H relay)
2S  4144 or 1444 shape
2NT  4045 or 0445 shape (ie longer clubs)
3C  4054 or 0454 shape (ie longer diamonds) AND 2 controls
3D  4054 or 0454 shape AND 3 controls
3H+  etc

After 1D-1H-1S/1NT-2C-2S (ie major 3 suiter)

(2NT relay)
3C  4414 or 4441 shape
3D  4405 or 4450 shape AND 2 controls
3H  4405 or 4450 shape AND 3 controls
3S+  etc

3.2  **Continuations with 2 suiters with both minors**

After 1D-1H-2C (ie 5+ clubs, 4 diamonds)

2D  non-forcing
2H  invitational, 5 or 6 hearts
2S  artificial game-force relay
2NT  natural, invitational, 4 hearts
3C,3D  non-forcing

After 1D-1H-2D (ie 5+ diamonds, 4 clubs)

2H  invitational, 5 or 6 hearts
2S  artificial game-force relay
2NT  natural, invitational, 4 hearts
3C, 3D non-forcing

Following 2S artificial game-force relay, revert to standard relay structure.

3.3 Continuations with 5/5 shapes

After 1D-1H-2H (5+/5+ majors)

2S invitational, support for both majors
2NT artificial game-force relay, revert to standard relay structure
3C, 3D invitational in hearts, long suit trial bid
3H pre-emptive raise

After 1D-1H-2S (ie 5+/5+ minors)

2NT artificial game-force relay, revert to standard relay structure
3C,3D non-forcing
3H invitational, 6 hearts

4. 1H opening (10-14 hcp, 5+ hearts)

Responses summary

Pass 0-11 hcp (if 5-11 hcp, has less than 3 hearts)\(^1\)
1S natural (4+), non-forcing, may be invitational
1NT artificial game-force relay - natural, non-forcing by passed hand
2C natural (5+), non-forcing, may be invitational
2D natural (5+), non-forcing, may be invitational
2H natural, 5-10 hcp, 3 hearts (or 4 hearts if 3-4-3-3), long suit trials apply
2S,3C,3D fit-showing jumps, invitational in hearts, suit bid could be 3 cards if 3-4-3-3
2NT 4 hearts (not 3-4-3-3), 7-10 hcp, long suit trials apply
3H pre-emptive raise, 0-6 hcp, 4 hearts (not 3-4-3-3)
3S,4C,4D fit-showing jumps, game forcing in hearts
3NT signoff

\(^1\) There is no longer a method of showing a balanced invitational hand with a doubleton in partner's major. The choice is between underbidding (with 11 points) and Passing - hoping no game is on, or that an opponent balances; or overbidding (with 12 points) and using the INT game force relay.
Relays after 1H-1NT

2C   clubs, or 5440 with an unspecified void
2D   diamonds
2H   exactly 4 spades
2S+  normal one-suited relay structure applies

1H-1NT-2C-2D-2H (5440 with an unspecified void)

(2S relay)
2NT  0544 shape
3C   4504 shape
3D   4540 shape AND 2 controls
3H   4540 shape AND 3 controls
3S+  etc

5.  1S opening (10-14 hcp, 5+ spades)

Continuations are the same as for the 1H opening, with appropriate changes to raises and fit-showing jumps. EXCEPTIONS: A 2H response to 1S shows 5+ hearts, and a 4H response to 1S is a signoff.

Relays after 1S-1NT
As for 1H-1NT, except that 2H rebid shows exactly 4 hearts.

6.  1NT opening (11-14 hcp, balanced)

Note: The same responses are also used after 1C-1D-1NT, 1C-1D-1H-1S-1NT, and a 1NT overcall.

Responses summary

2C   simple Stayman
2D   transfer to hearts
2H   transfer to spades
2S   range probe
2NT  transfer to clubs
3C   transfer to diamonds
3D   game-force, 5+ diamonds and 4+ clubs
3H   natural slam try
3S   natural slam try
3NT  signoff
4C   pre-emptive transfer to hearts
4D   pre-emptive transfer to spades
4H   signoff
4S   signoff
4NT  simple Blackwood
6.1 Stayman sequences

Responder's use of Stayman guarantees a four card major.

1NT 2C signoff, 5 hearts and 4 spades
2D 2H signoff, 5 spades and 4 hearts
2S 5 hearts and 4 spades
2NT natural invitation
3C 5+ clubs (& major), invitational
3D 5+ diamonds (& major), invitational
3H invitation, 5 hearts and 4 spades
3S invitation, 5 spades and 4 hearts

1NT 2C
2H 2S non systemic
2NT natural invitation, 4 spades
3C 5+ clubs, 4 spades, invitational
3D 5+ diamonds, 4 spades, invitational
3H natural invitation
3S non systemic
3NT natural, 4 spades
4C non systemic
4D non systemic

6.2 Transfer sequences

After a transfer, if responder makes a simple rebid of a new suit, that is natural and game-forcing. If responder jumps in a new suit, that is natural and not a slam try. If responder transfers to a major, then raises to three, that is game invitational. If responder transfers to a minor, then raises to four, that is a shapely game invitation, with no interest in 3NT.

Super accepts after a transfer to a major

Simple acceptance of a transfer to a major denies four card support. With four cards, the 1NT opener bids three of the major with a minimum. With a maximum, the other four card suit is bid, or 2NT if 4333.
6.3 Range probe sequences

The 2S range probe is used with these four types of hands:

- invitational to slam in notrumps
- invitational to slam with a good six card minor
- invitational to game, without a four card major
- 4333 with a weak four-card major, game invitational (with a strong four-card major, Stayman is used instead)

Other types of hands should use either a Stayman or a transfer sequence.

1NT - 2S (range probe)
2NT minimum, no 5 card minor
3C minimum, 5 clubs
3D minimum, 5 diamonds
3H non systemic
3S non systemic
3NT any maximum

1NT - 2S
2NT - 3C originally invitational, 5+ clubs
3D originally invitational, 5+ diamonds
3H non systemic
3S non systemic
3NT signoff

After bidding the 2S range probe, a rebid of 4C is a slam try, setting clubs as trumps; and a rebid of 4D is a slam try, setting diamonds as trumps.

6.4 Slam try sequences

1NT - 3H or 3S and 1NT - 2S - any - 4C or 1NT - 2S - any - 4D set that suit as trumps. When a suit is set as trumps, cuebid your cheapest first or second round control (A or void is 1st round control, K or singleton is 2nd round control). 3NT (if available) cuebids the A or K of trumps. 4NT is Keycard Blackwood.

1NT - 4NT is simple Blackwood. 1NT - 2D - 2H - 4NT is invitational to 6H or 6NT, since hearts have not been "set" as trumps with an immediate 3H response.

7. 2C opening (10-14 hcp, 6+ clubs)

On rare occasions 2C could be opened with only 5 clubs, provided the club suit contains 100 honours.

Responses summary

2D artificial game-force relay - natural, non-forcing by passed hand
2H,2S natural, non-forcing, could be invitational
2NT natural, invitational, 2+ clubs
3C non-forcing
3D,3H,3S fit-showing, clubs and suit bid, invitational
3NT signoff

Relays after 2C-2D
2H  four weak diamonds
2S+  standard single-suited relay structure is used

8.  2D opening (10-14 hcp, 6+ diamonds)

On rare occasions 2D could be opened with only 5 diamonds, provided the diamond suit contains 100 honours.

Responses summary

- 2H: artificial game-force relay - natural, non-forcing by passed hand
- 2S, 3C: natural, non-forcing, could be invitational
- 2NT: natural, invitational, 2+ diamonds
- 3D: non-forcing
- 3H, 3S, 4C: fit-showing, diamonds and suit bid, invitational
- 3NT: signoff

Relays after 2D-2H

Standard single-suited relay structure is used.

9.  Bidding after interference over our openings

A double is penalty if the partner of the doubler has shown a suit, bid notrumps, or made a takeout double. Also, if a game-force relay auction is broken by a jump, a double by either partner is penalty, and a pass is a forcing waiting call.

9.1  Interference in game-force relay auctions

If the opponents interfere after a game-forcing relay auction has already started, then they need to make a jump overcall to break the relay. After a simple overcall or double, the relays continue with step responses:

- Pass 1st step
- X (or XX) 2nd step
- cheapest bid 3rd step, etc

If it is the relayer's turn to call, then Pass continues the relay, and double (or redouble) is for penalty.
9.2 Interference after 1C opening

Immediate interference at one level:

Pass  negative
X (or XX)  positive in hearts
cheapest bid  positive in spades, etc

Standard relays are used, possibly with steps gained or lost depending on the magnitude of the interference.

Immediate interference at two level:

Double by responder is takeout, 5+ hcp (if the overcall is multi-meaning with no anchor suit, then double is 5+ hcp with general values, and subsequent doubles by either partner are penalties). Responder's suit bids at the two level are semi-positive (circa 5-7 hcp). 2NT is lebensohl. Higher bids are game-forcing.

If responder passes, then double by the 1C opener is either takeout with 15-18 hcp, or any 19+ hcp hand.

Immediate interference at higher levels:

Responder's bids are game-forcing. Doubles by either partner are takeout.

Interference after negative response to 1C:

1C-(Pass)-1D-(interference at one level)

X (or XX)  19+ hcp, with step responses
Other bids  15-18 hcp, natural

1C-(Pass)-1D-(interference at higher levels)

Pass  15-18 hcp, balanced or trap pass
X  15-18 hcp takeout, or 19+ hcp any shape
Suit bids  15-18 hcp natural
2NT  21-22 hcp natural

(NB A delayed interference at the two level before a game force has been established also breaks the relay.)

9.3 Interference after 1D opening

Immediate interference:

XX  unspecified game force, not a relay
X  either takeout, or unspecified game force
1 or 2 level bids negative free bids, invitational values or less
2NT  natural, invitational, promises stopper
3 level bids  game forcing
Cue bid  game force, asks for stopper (opener bids long suit with none)

1D-(Pass)-1H-(Interference):

1D opener assumes that the 1H responder is weak in hearts (rather than an artificial game-force), and raises with 3 or 4 hearts, passes with nothing to say, bids own suit, or doubles for penalties. If opener bids 2S, that is natural but shows a maximum.
Showing 5/5 majors after opening 1st or 2nd seat 1D, and subsequent interference:

Cuebid of opponent’s suit would show 5/5 majors. For example, 1D-(2C)-X-(3C)-4C would show 5/5 majors, while 1D-(2C)-X-(3C)-4S would show a maximum with 4 spades and probably 6 diamonds.

9.4 Interference after 1H or 1S openings

X (or XX) penalty oriented
1NT artificial game force relay
Cuebid cue raise
2NT 7-10, 4 card support, not 4333, long suit trials apply
Raise to 3 0-6, 4 card support, not 4333

If a 1NT bid is not available, then new suits are natural and forcing for one round. Jumps in new suits remain fit-showing.

9.5 Interference after 1NT opening

After immediate Double:

Pass forces redouble, either to play or weak with two touching suits
(bid lower of two suits next round; with spades and clubs bid 2S)
XX forces 2C, shows unspecified 5+ suit and weak hand
2C clubs and hearts, weak
2D diamonds and spades, weak
2H,2S natural, willing to compete to three level opposite support
2NT strong 6/5 shape
3 bids pre-emptive

After 1NT-Pass-Pass-Double:

XX by 1NT opener promises a five card suit (partner's 2C is correctable)
Pass by 1NT opener no five card suit, then:
   Pass either values, or 4333 type shape, weak
   XX forces 2C, shows unspecified 5+ minor, weak
   2C clubs and another suit, weak
   2D diamonds and a major, weak
   2H hearts and spades, weak

After 2 level overcall:

X penalty (after a multi-meaning overcall, double shows penalty interest in at least one of their possible suits, and subsequent doubles by either partner are for penalties)
2 suit non-forcing
2NT lebensohl
3 bids game-forcing

After higher overcalls:

X penalty
Other bids game-forcing

9.6 Interference after 2C or 2D openings
XX penalty oriented, opener can make penalty double with strong 3 card holding
X penalty
2NT natural, invitational, 2+ cards in partner's minor
New suit natural, forcing for one round

10. Pre-emptive openings

10.1 RCO Twos (2H, 2S or 2NT openings)

After an RCO Two, responder's bids are normally "pass or correct". If responder wishes to play in their own suit, they must first make a forcing enquiry. (After a double, redouble is the forcing enquiry.)

10.2 3NT opening (Any solid 7 or 8 card suit, no outside A or K)

| 4C, 4D | pass or correct |
| 4H, 4S | signoff         |
| 4NT    | bid singleton (bid long suit if 7222) |
11. Bidding when we interfere over their openings

11.1 They open one of a suit

If we overcall their suit, a cuebid or a fit-showing jump shows 3+ card support and invitational (or better strength) with high cards. An immediate raise is based on the Law of Total Tricks. A 2NT response is natural and invitational, guarantees a stopper in the opponents’ suit(s), and has 2+ cards in partner’s overcalled suit. A new suit is forcing for one round.

All doubles after they open are normal takeout doubles, or a hand too strong to overcall (17+ points).

In balancing seat, after two passes, a 1NT overcall shows 11-14 balanced. All other 1NT overcalls show 15-18 balanced. 1NT overcalls do not promise a stopper.

Michaels cuebids and unusual 2NT overcalls always show at least 5/5 shape, and always show less than opening values.

If they have bid two suits, an overcall in either is natural. Double promises 10+ hcp with at least 4 cards in both unbid suits, or a hand too strong to overcall (17+ points). 1NT remains 15-18 balanced. 2NT shows 5/5 in the unbid suits with about 5-9 hcp.

11.2 They open 1NT

X penalty, usually 15+ (if doubler’s partner bids, lebensohl applies)

2C unspecified single-suiter 2D non-forcing relay
2H, 2S natural, constructive
2NT artificial game force

2D both majors 2NT artificial game force

2H hearts and minor 2NT artificial game force
3C pass or correct

2S spades and minor 2NT artificial game force
3C pass or correct

2NT both minors

11.3 They open a weak or multi-two

X 15+ any shape, with lebensohl responses
2NT 17-20 balanced (includes stopper in promised suit(s)), with Puppet Stayman and transfers

Overcalls 10-14 natural
Cuebid of promised suit Game-forcing Michaels
Pass, then double 10-14 takeout
Jump overcalls Good hands with lots of playing strength
12. Competitive bidding philosophy

- With support, we raise to at least the Total Trick level.
- If our suit is supported by partner, and we hold at least 5/5 shape, and we intend to bid game, we do **not** merely jump to game. Instead, we rebid our second suit at the highest possible level (but below the level of game in our supported original suit). This allows our partner to judge what to do if an opponent bids on.
- If our previous bid was descriptive (for example a 1NT opening or overcall), and the opponents sacrifice; a subsequent penalty double by us guarantees honour(s) in their suit, while a forcing Pass of their sacrifice shows no wasted values in their suit.
- If an opponent opens a strong NT (defined as a 1NT opening which may have 16 or more points), doubles of Stayman or transfers are lead-directing.
- If an opponent opens a weak NT (defined as a 1NT opening which **cannot possibly** hold more than 15 points), doubles of Stayman or transfers are **identical to a penalty double of 1NT**.

Appendix B - Leads, Signals and Discards

Leads and Signals versus Notrumps

A - asks for unblock of K, Q or J; otherwise give natural count
K - promises A or Q, asks for natural attitude
Q - asks for unblock of J, either top of sequence or from KQ10
J - denies a higher honour
10 - promises an interior sequence
9 - promises ten, but denies a higher honour
pip - low pip lead is encouraging, high pip lead is discouraging.

We overlead (except AK) partner's suit. When an opponent has promised a long suit before reaching 3NT, the opening lead of an Ace asks for natural attitude (not unblock or count).

In notrump contracts our signals are primarily natural attitude on partner's leads. We sometimes give natural count when declarer plays a suit. When we give false count, low-high with an even number is more likely than high-low with an odd number.

Leads and Signals versus Suit Contracts

In suit contracts we underlead touching honours at trick one. On subsequent tricks (or in partner's suit at trick one) we overlead, except for AK.

When leading from length in suit contracts, we lead the lowest card from an odd number, and the third highest from an even number (top from doubleton). Subsequent leads from length are attitude (low pip encourage, high pip discourage).

Our signals in suit contracts are natural present count. Exception: if partner leads a winner and dummy has a singleton, an odd pip asks partner to punch dummy, while an even pip is suit preference.

Discards

First discard in notrump or suit contracts: odd pip encouraging, even pip suit preference. Discard of an A, K, Q or J meaningless. Also, second and subsequent discards meaningless.
